

OMARCHY ETHIOPIA

The Malleable OS for the Age of Agents. Gathering Addis Ababa's sharpest systems, Linux, and AI engineers.

📅 Saturday, October 3, 2026

📍 Addis Ababa, Ethiopia

omarchy.org.et/meetup

Official Partner: Tefer

Where Ethiopian Engineering Meets Modern Linux & AI

THE SHIFT

Autonomous Agents

Tools like Claude Code, Antigravity, and local LLMs require keyboard-first, distraction-free operating environments engineered for speed.

THE PLATFORM

Omarchy Linux

Created by DHH (creator of Ruby on Rails & 37signals), Omarchy is a malleable, beautiful Linux distro tailored specifically for modern software engineers.

THE COMMUNITY

Ethiopian Chapter

Uniting local systems programmers, open-source contributors, and backend engineers to share production craft and connect with upstream development.

Curated Access to the Top 5% Engineering Talent

Production-Grade Engineering Talks

Fraol Lemecha
Software Developer at EVpin

“Nix for Omarchers”

The talk would try to introduce the audience to Nix and NixOS. Why it's interesting, How they could use it, Where it would be helpful for them in their development and system admin tasks, and some stuff about how the Omarchy...

Confirmed Talk • 30 mins

Dagim Gizachew Astatkie
Backend Engineer at klik.et

“Vicinae: High-Performance Desktop Launcher, Raycast Compatibility & Beyond”

A desktop launcher shouldn't just open apps, it should be the command center for your entire workflow. Vicinae is an open-source, cross-platform launcher engineered for speed and extensibility, offering developers a polished, unified...

Confirmed Talk • 30 mins

Eyuel Getachew
Software Developer

“Beyond the rice: Building an Agentic Desktop on fedora 44 with omarchy principles”

Linux customization is often notorious for its grueling but rewarding process called "ricing" in the linux community. But when your workstation is your daily driver for developing production software, managing AI agents, aesthetics...

Confirmed Talk • 30 mins

Why Sponsor Omarchy Ethiopia?

01 • TALENT PIPELINE

Direct Engineering Hiring

Senior Linux, systems, and backend engineers are the hardest talent to find in Addis Ababa. Sponsoring gives you direct access to 100+ builders without recruiter fees.

02 • BRAND PRESTIGE

Engineering-First Image

Position your company as a pioneer that invests in open source, developer ergonomics, and local technical infrastructure.

03 • DEV TOOL ADOPTION

APIs & Cloud Adoption

Showcase your developer APIs, cloud platforms, fintech rails, or tools directly to the power-users who implement architecture in production.

Grassroots Sponsorship Tiers

LEAD

20,000ETB

- Top logo on site & Luma
- Roll-up banner in hall
- 2-min stage welcome
- Company swag on tables
- 4 VIP Passes

COMMUNITY

15,000ETB

- Logo on site & Luma
- Stage slides logo
- MC shoutout & hiring plug
- Swag at reception desk
- 2 VIP Passes

SUPPORTER

10,000ETB

- Logo on website
- Telegram group thank-you
- MC opening mention
- 2 VIP Passes
